

MICROMARMO[®] *Floor...*
& ULTRA

MICROMARMO® *Floor...*

**la nuova Eco-Finitura Materica di Alto Design,
per qualsiasi superficie continua, sia orizzontale che verticale!**

***The new Eco- tactile finish of top-class Design, for an entire surface,
both horizontal and vertical!!***

I principali Plus di MicroMarmo Floor:

- Innovativa formula composta da un solo prodotto, monocomponente in polvere, utilizzato sia come livellante (grazie al suo straordinario potere riempitivo), che come finitura.
- 100% Eco-Friendly, non è e non vuole essere un pavimento in resina! MicroMarmo Floor è una finitura minerale, con componenti di origine naturale e inerti di marmo.
- Sorprendente sensazione di comfort, mai ottenibili con i "freddi" e sintetici pavimenti in resina.
- Possibilità di realizzazione di soluzioni continue, pavimento-muro, di grande impatto estetico e di grande originalità.
- Infiniti effetti decorativi, che permettono di ricreare meravigliose finiture: dal classico Spatolato al vintage dell'effetto Maiolica, dall'effetto Contemporary, al Favignana per arrivare al Beton...
- Possibilità di personalizzare la finitura; dall'opaco al lucido, o impreziosita da speciali aggiunte di preziosi componenti metallici e/o perlescenti. Oltre 150 i colori disponibili!
- Adattabile in qualsiasi tipo di ambiente di design: camere di hotel, hall, bar & ristoranti, wellness area & spa, negozi, showroom, uffici, o appartamenti, compresi bagni e interno doccia.
- Totale impermeabilità di tutto il ciclo MicroMarmo Floor, grazie anche alla speciale protezione Matt Protector 2K.
- Basso spessore (2-3 mm.) per una grande resistenza meccanica e al graffio.
- Può essere applicato direttamente su piastrella o ceramica (previa applicazione dello speciale MicroMarmo Primer), senza dover smantellare la superficie già esistente.

The Key values of MicroMarmo Floor:

- An innovative formula consisting of a single, one-component powder product, used both as a smoothing agent (due to its extraordinary filling power) and as a finishing.
- 100% Eco-Friendly, it is not and doesn't want to be a resin floor! MicroMarmo Floor is a mineral finish, with natural source components and marble inerts.
- An amazing feeling of comfort, which can't be achieved with "cold" and synthetic resin flooring.
- The possibility of obtaining entire, floor-wall solutions, giving a great visual impact and originality.
- Endless decorative effects, which make it possible to create splendid finishes: from the classic "Spatolato" to the vintage of Maiolica effect., Contemporary effect, Favignana and even Beton...
- Possibility to personalize the finish; from opaque to polished, or elaborated by special additions of precious metallic and/or pearlescent components. Over 150 colours available!
- Adaptable to any type of design setting: hotel rooms, lounges, bars & restaurants, spa area, shops, showrooms, offices, or apartments, including bathrooms and shower facilities.
- Total waterproofness, the entire cycle of MicroMarmo Floor due to the special Matt Protector 2K protection.
- Thickness (2-3 mm.) For strong mechanical resistance and scratch.
- It can be applied directly to tiles or ceramic (with the application of the special MicroMarmo Primer) without having to dismantle the existing surface.

MICROMARMO® Floor...

новое абсолютно экологичное финишное покрытие высокого дизайна,предназначенное для любой непрерывной поверхности, как напольной, так и настенной!

高科技设计新的生态整理, 对于任何表面, 横的或垂的!

основные плюсы MicroMarmo Floor:

- Инновационная формула,однокомпонентная сухая смесь,позволяющая получить абсолютно гладкие поверхности. В состав материала входит особый компонент, обладающий максимально заполняющей способностью

- 100% Экологичный, он не является и не хочет быть смоляным полом! Поверхность MicroMarmo - минеральная отделка, с природными компонентами и мраморными частицами.

- Удивительное чувство комфорта, которое никогда не сравнится с «холодным» и синтетическим настилом.

- Возможность реализации любых идей, непрерывных напольных покрытий без стыков и швов, превосходное визуальное решение и неповторимая оригинальность.

- бесконечное количество Декоративных эффектов, которые позволяют воссоздать любой стиль отделки: от классического Spatolato до винтажного Maiolica, от современного Contemporary effect до Favignana, и так до трендового Бетона ...

- MicroMarmo floor дает возможность реализовать эксклюзивную декоративную отделку; от матовых до полированных гладких поверхностей. А дополнительные добавки из драгоценных металлов и перламутров сделают вашу поверхность эксклюзивной. Широкий спектр из более 150 цветов!

- Приспосабливается к любому типу дизайна: гостиничные номера, лаунджи, бары и рестораны, зона отдыха и спа, магазины, выставочные залы, офисы или апартаменты, в том числе ваннные комнаты и душевые.

- Полная водонепроницаемость во всем цикле MicroMarmo Floor благодаря специальной защите Matt Protector 2K
Толщина наносимого слоя (2-3 мм). Высокая механическая прочность и устойчивость к царапинам.

- благодаря применению специальной грунтовки MicroMarmo, можно наносить на любые поверхности, даже на керамическую плитку без предварительного демонтажа.

微大理石地板的主要优点

-只由一种产品组成的创新配方，单组分粉末，用作矫直机（由于其非凡的填充力量），又用作整理的。

-百分之百的生态整理，并不是树脂地板！微大理石地板是用矿物加工的，由天然成分和大理石材料组成的。

-挺舒适的感觉。这种感觉不能用树脂地板获得的。

-具有极大的审美影响和独创性。

-无限的装饰效果，让人重新创造美妙的效果：从经典的刮刀的一直到复古的马约利卡效应，从当代效果到法维尼亚纳到混凝土。

-个性化的可能性: 从不透明到抛光，或者通过添加特殊的珍贵的金属和/或珠光组分来装饰。超过150种颜色。

-适用于任何类型的设计环境：酒店客房，休息室，酒吧和餐厅，休闲区和水疗中心，商店，展厅，'办公室或公寓，包括浴室和淋浴设施。

-整个微大理石地板循环的防水性得益于特殊的 Matt Protector 2K保护。

-低厚度（2-3毫米）为了很好的机械强度和划痕。

-它可以直接应用于瓷砖或陶瓷（应用特殊的微大理石地板底漆），而不必拆除现有的表面。

ULTRA RESISTENTE**

Applicazione, Application

Spatola - Trowel

Diluizione, Dilution

Pronto all'uso - Ready to use

**MONOCOMPONENT
PASTE FORM -READY TO USE
ULTRA RESISTANT**

Resa, Yield

■ m² 1,5 - 2 kg/m²

Confezioni, Packaging

20 kg

Pronto all'uso,
in pasta e facile da colorare.

Eccellente resistenza meccanica

Si conserva meglio e più a lungo

Riutilizzabile fino a 15 giorni dopo
l'apertura del contenitore.

Ideale per le zone ad elevato
ristagno d'acqua

Antimuffe,
inattaccabile da alghe e batteri

Formaldeide ed APEO FREE

Utilizzabile anche all'esterno
(balconi e terrazzi)

Ready to use,
in paste form, easy to color

Excellent mechanical resistance

Better and longer preservation and shelf life

Reusable up to 15 days after
first opening of the container

Ideal for areas with high
water stagnation

Anti-mold,
resistant to fungus and bacteria

Formaldehyde and APEO FREE

Can be used outdoors
(balconies and terraces)
